### Professional Summary

Dynamic Web Developer and student of Engineering in Digital Content Development and Applied Robotics, with a strong technical foundation and a creative mindset for problem-solving. Experienced in designing and developing responsive interfaces using Blazor, .NET MVC, React.js, Next.js, and Angular. I have contributed to projects for clients such as Wompi, Nequi, Farmacias San Nicolás, and Pullmantur, among others, delivering innovative and scalable digital solutions. Certified in AWS, Git, and Object-Oriented Programming. Recognized for excellence in innovation and research, I am a versatile, results-oriented professional with the ability to drive digital transformation within agile, high-performance teams.

### Professional Experience

#### Web Designer

*Jul 2024–Present*

BITWORKS S.A. de C.V.

- Responsible for designing and developing responsive web interfaces on the frontend.
